

A requirement of the QE and REW Licence is to provide a minimum of **2 years** relevant industry employment history. You should forward the employment verification table below to your current/previous employer/subcontractor for employment verification. **Please note no other form of employment verification will be accepted.** If applying for an Apprentice Electrical Licence the employment verification is verified by the signed Personal Training Plan (PTP) or Delivery Agreement (DA).

Verification of employment for QE and REW Licence applications must be provided by **someone of authority within the business. This information must be returned from a company email or must have a company stamp applied before returning/emailing to SparkSafe LtP.**

All the information in the table below must be fully completed. Failure to provide all the information may result in a delay in processing your application. Please give a member of the SparkSafe team a call if you need any further information.
